Northeast Alabama Community College Joins the M-List
School offers credit program pathways through Workforce Development Division

WASHINGTON, July 28, 2016: The Manufacturing Institute is pleased to announce Northeast Alabama Community College as the newest member of the M-List.

Northeast Alabama Community College is a comprehensive community college located in the foothills of the Appalachian Mountains whose mission is to provide accessible quality educational opportunities, promote economic growth, and enhance the quality of life for the people of Alabama. NACC is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award the associates degree.

The Manufacturing Institute’s M-List designation is an acknowledgement of Northeast Alabama Community College’s outstanding courses in Drafting & Design, Engineering Technology, Industrial Systems Technology, Industrial Electronics, Machine Tool Technology, Air Conditioning & Refrigeration, and Welding. Enrolled students will be eligible to receive certifications from ACT, the National Center for Construction Education and Research (NCCER), and the American Welding Society (AWS), while receiving college credit.

The M-List recognizes high schools, community colleges and universities that are teaching manufacturing students to industry standards. Specifically, these institutions offer students the opportunity to earn NAM-Endorsed Manufacturing Skills Certifications as a standard part of their manufacturing education programs.

Companies and schools interested in joining the Manufacturing Institute’s effort or learning more can visit http://www.themanufacturinginstitute.org/Skills-Certification/Educator-Resources/M-List/M-List.aspx.
