

**PRESS RELEASE**

*For Immediate Release*

**Front Range Community College Joins the M-List**  
*School offers for-credit program options in machining technology*

**WASHINGTON, June 10, 2016:** The Manufacturing Institute is pleased to announce **Front Range Community College** as the newest member of the M-List.

Front Range Community College is Colorado's largest community college, enrolling 30,000 students each year. With campuses located in Westminster, Longmont, and Fort Collins, FRCC provides transfer and career and technical education programs that run the gamut from accounting to welding.

The Manufacturing Institute's M-List designation is an acknowledgement of Front Range Community College's outstanding precision machining technology courses. Enrolled students will be eligible to receive certifications from the National Institute for Metalworking Skills (NIMS), as well as receive college credit.

"One key to our focus on student success is to create a superior student experience," said FRCC President Andy Dorsey. "The Machining Program at the Advanced Technology Center combines state-of-the-art equipment with outstanding instructors who have extensive experience in manufacturing. It's a combination that our industry partners can rely on for skilled workers."

The M-List recognizes high schools, community colleges, and universities that are teaching manufacturing students to industry standards. Specifically, these institutions offer students the opportunity to earn NAM-Endorsed Manufacturing Skills Certifications as a standard part of their manufacturing education programs.

Companies and schools interested in joining the Manufacturing Institute's effort or learning more can visit <http://www.themanufacturinginstitute.org/Skills-Certification/M-List/M-List.aspx>.
