Metropolitan Community College Joins the M-List
School offers credit program pathways in Computer Integrated Machining and Industrial Technology

WASHINGTON, June 23, 2016: The Manufacturing Institute is pleased to announce Metropolitan Community College as the newest member of the M-List.

Metropolitan Community College-Business & Technology is Kansas City’s hub for technical education, preparing students, serving communities and creating opportunities in technical fields.

The Manufacturing Institute’s M-List designation is an acknowledgement of Metropolitan Community College’s outstanding Computer Integrated Machining and Manufacturing and Industrial Technology courses. Enrolled students will be eligible to receive certifications from the National Institute for Metalworking Skills (NIMS) and the Packaging Machinery Manufacturing Institute (PMMI), while receiving college credit.

“Metropolitan Community College-Business & Technology is committed to providing students with superior training and skills in the manufacturing industry,” said Dr. Jacqueline Gill, president, MCC-Business & Technology. “Our programs combine experienced, outstanding instructors and state-of-the-art facilities to prepare our students for the workforce. We are excited to be recognized by the Manufacturing Institute, which has a strong reputation and is well-respected in the industry.”

The M-List recognizes high schools, community colleges and universities that are teaching manufacturing students to industry standards. Specifically, these institutions offer students the opportunity to earn NAM-Endorsed Manufacturing Skills Certifications as a standard part of their manufacturing education programs.

Companies and schools interested in joining the Manufacturing Institute’s effort or learning more can visit http://www.themanufacturinginstitute.org/Skills-Certification/Educator-Resources/M-List/M-List.aspx.
